

ANTISLIP FINISHES

Charges for interlayers in anti-slip finishes. Used in DESMOPOL, TECNOCOAT waterproofing and coating systems and in TECNOFLOOR multilayer pavements.

USES

- SILICA SAND especially for use in waterproofing systems DESMOPOL membranes to achieve non-slip finish.
- Burden to middle layer anti-slip finishes

Granulometry 0,3 ~ 0,8 mm

PRESENTATION

25 kg plastic containers

STABILITY OF CONTAINERS

12 months in original unopened containers and stored in dry place at temperatures of 5-25 °C

TRANSPORT AND STORAGE

Consult safety data sheet

TECHNICAL DATA

Density	265 gr/c ³
SiO ₂ %	Approx 99%
Grain shape	Sub-angular
Solubility in water	Negligible
Solubility in hydrofluoric acid	Yes
Molecular weight	60.1
